*****Private Pilot Ground School – January 2010*****

Kevin Olson of Centerline Flight LLC in association with Gopher Flying Club (formerly Honeywell Flying Club) is pleased to offer a Private Pilot Ground School beginning January 2010. This unique aviation ground school is perfect for individuals who have ever considered becoming a pilot or for those who are ready to make it a reality.

This fun and interactive ground school is designed to give participants a broad understanding of the world of aviation, aircraft and the process of learning to fly. Kevin is a seasoned commercial pilot and active flight instructor, with just the right mix of experience to give you the information you need.

This ground school will cover topics that are important to future pilots, including: aircraft systems, basic aerodynamics, airspace and air traffic control, Federal Aviation Regulations, weather, navigation, aviation medical factors, decision-making models and flight planning techniques. Many more current topics will also be covered, including: GPS navigation, WAAS and the latest glass-panel instrumentation systems. This course is designed to give you a solid base of knowledge in the various areas a pilot should understand and assist in preparing for the FAA Private Pilot knowledge exam.

The ground school will run for 11 weeks and be held on Tuesday evenings from 6:00 to 9:00 p.m. beginning January 12, 2010 and run through March 23, 2010. The course will be held at the Honeywell facility on Highway 55 in Plymouth, MN. **Note that due to the class location, all class attendees must be US citizens.**

The course fee is \$295, which includes the class text and any other materials you will need. This popular course is limited to 20 participants and will likely fill very quickly. Registration will begin immediately, with a registration deadline of Thursday December 31, 2009.

Registered participants will receive additional class information, including a full class syllabus in mid-December. Class text will be distributed at the first class. In the meantime, if you have questions or need additional information, please contact Kevin Olson at kpo@centerlineflight.com or by phone at 612-239-9627.

Thank you for your interest in this ground school. I hope you will join us!
